Assign a priority level for each of the criteria listed – High Priority should receive a 1. Criteria of lesser importance would score 2 or 3. Rate each school as to how closely they meet those criteria with a 1 being the highest and a 5 being the lowest. Multiply the priority level times (X) the school rating to get the score for that category. ($\underline{3}$ X $\underline{2}$ = $\underline{6}$) Calculate the totals and the school with the lowest score matches your needs the best.
